The Pulse of Parkinson's

JUNE 4, 2024

## Great News for People with Parkinson's!

**NATIONAL PLAN TO END PARKINSON'S ACT IS THE FIRST-EVER LEGISLATION SOLELY DEVOTED TO ENDING PARKINSON'S DISEASE.**

The legislation aims to unite the federal government in a mission to cure and prevent Parkinson's, alleviate financial and health burdens on American families, and reduce government spending over time. Parkinson's disease is the second most common – and fastest-growing – neurological disease globally with nearly 90,000 new cases diagnosed every year.

As the number of people diagnosed with Parkinson's is expected to rise to more than one million in the next few years, we need real collaboration across the public and private sectors to fast-track promising research, develop better treatments, support patients and their loved ones, and find a cure. I'm proud to have helped get this legislation across the finish line so we can finally establish a national plan to end Parkinson's once and for all," Senator Murphy (D-Connecticut) said.
